

Cornerstones for Health Information Exchange: *A CalPSAB Symposium*

Closing Remarks

*Bobbie Holm, Chief, Policy Branch,
California Office of Health
Information Integrity*

Cornerstones for Health Information Exchange: *A CalPSAB Symposium*

What you heard today from Secretary Belshe?

- Governor supports the development of privacy and security policy
- Provides the rules for the “compact” between the patient and the provider in an environment of HIE
- Need to keep up the tremendous effort that all of you have participated in thus far

Cornerstones for Health Information Exchange: *A CalPSAB Symposium*

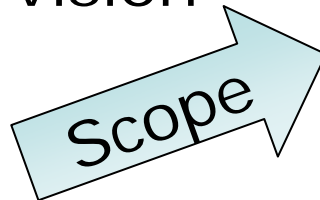

Fear, Greed and Consequences

- Privacy, like mortgage backed security needs to be transparent or there is no trust
- Lack of trust is created in an environment of Fear, Greed and lack of Consequences
- Trust over comes these issues
- Get over the “thrill of the theory”
- Involve stakeholders in real-life test cases

California's vision

Stakeholders

Policy
Technology
Transparency
Trust
Law

Cornerstones for Health Information Exchange: *A CalPSAB Symposium*

- New York:
 - Governance, Accountability, Funding
 - Affirmative consent
 - Test in regions to determine next level
- Massachusetts:
 - Testing since 1998, Opt-In model, regional with no govt. support
- Maine:
 - Began in 2004, go live next week, Opt out with CDC funding

MENTAL HEALTH Services 2009 vs 2015

Cornerstones for Health Information Exchange: *A CalPSAB Symposium*

Conclusions

- Develop the common, transparent policy that ensures patient privacy and provides the data necessary to improve care
- Create version 1.0 and test policies
- Continue to work on “real-life” examples of HIE
- Maintain the momentum!
